

Paper Submission

Written by Carlo Combi - Last Updated Monday, 06 April 2009 08:59

Since the proceedings will be published by Springer in the LNCS series, authors must submit manuscripts using the LNCS style. See [this site](#)  for style files and details.

The suggested number of pages is:

1. 10 pages for full research papers
2. 5 pages for short papers that:
 - are short research papers
 - demonstrate implemented systems
 - describe late-breaking results (work-in-progress)

Manuscripts not submitted in the LNCS style or having more than 12(for full) /6 (for short) pages will not be reviewed and thus automatically rejected. The final, camera-ready version must not exceed 10/5 pages.

A paper submitted to AIME'09 cannot be under review for any other conference or journal during the time it is being considered for AIME'09.

Submission to AIME'09 will be electronically only. Authors are asked to submit an abstract first, and then to upload the full paper.

The webpage for on-line submissions (through EasyChair) is available [here](#)
